

Alcatel **Advanced Reflexes™**

Alcatel **OmniPCX** *Office*

ARCHITECTS OF AN INTERNET WORLD

User guide

Thank you for choosing one of our Reflexes, range of telephones, and for your confidence in **Alcatel**

Your Alcatel Advanced Reflexes digital telephone offers you all the latest design features, so that it is very easy to use, while providing the most efficient means of communication

Your easy-to-use Alcatel Advanced Reflexes telephone offers you:

- a receiver that is pleasant to use: it fits nicely in the hand with a flexible grip section,
- communication is even more convenient using the audio keys (loudspeaker, hands free),
- using the convenient alphabetic keypad, you can call your correspondents by name,
- transparent magnifying keys for immediate reading of your of your programmed settings (direct calls, functions, etc.).

Your ultra-efficient Alcatel Advanced Reflexes telephone offers you:

- a screen, with keys and a navigator, that displays your correspondent's number or name, and allows easy transition between functions (call transfer, three-way conference),
- screen-displayed call icons (busy, free, on hold) to help you manage your calls (switching between correspondents),
- a complete range of connection interface units for data transmission, assisted telephone applications (CTI*) or easy connection of analogue (fax, answering machine) or ISDN terminals (PC with ISDN board, G4 fax).

*CTI : Computer Telephone Integration

How to use this guide?

You have an Alcatel Advanced Reflexes digital telephone. The large display, navigator and alphabetic keypad will help you use your telephone easily and make optimum use of the many functions offered.

Getting to know your telephone

■ Navigator

Lets you browse through several pages of the display and select a line (the bottom line is implicitly active).

■ Guide key

This key lets you:

- obtain information about the telephone
- program the keys

Light indicating messages received.

Mute key so that your correspondent can no longer hear you.

Hang-up key
To terminate a call or programming.

■ Audio keys

Loudspeaker:
to share a conversation

to reduce loudspeaker or receiver volume

to increase loudspeaker or receiver volume

Hands free:
to make or answer a call without lifting the receiver

■ Alphabetic keypad

Protected by a flap, used for call by name, message service and programming. You have a self-adhesive 'Memo' label to stick inside the flap.

■ Display and display keys

Displays 2 lines and several pages giving information on your correspondent and the functions available through the keys associated with the lines of the display screen.

 StoreN	Call required number.	 Divert	Divert your calls to another number.
 Lock	Prohibit outside calls.	 Read+	Display more information if required.
 Appoint	Make an appointment.	 Custo	Customize your terminal.
 PickUp	Pick up a call to another number.	 Operat	Programme company data.

■ Programmable keys and icons

To make a call, activate a service or manage your calls. Icons are associated with each of these keys:

Line icons:

-  Incoming call (flashing).
-  Call in progress.
-  Call on hold.
-  Call on common hold.

Function icons:

-  Function active.
-  Function requiring action.
-  Terminal or line busy.

Preprogrammed function keys:

-  Divert your calls to another terminal.
-  Access the various mail services.
-  Access your personal directory.
-  Transfer call to another terminal.
-  Make an ISDN call.

Installing the programmable key label

A printed label is supplied with the terminal. This should be installed beneath the programmable keys.

1. Insert a flat “ blade ” into the slot (1 slot per key block).
2. Raise the cover.
3. Slide the printed label into position.
4. Replace the cover.

Using your telephone

your correspondent's
name

terminate
your call

During a conversation, you can lift the receiver without terminating the call.

during a conversation

1.2 Making an outside call

• Making a call:

OR

0155667000

“Outside line”
key

number required

tells you the status of your
call

9 is the default code for an outside line.

1.3 Making an internal call

OR

OR

internal number
required

default code for
“Operator call”
function

line key

name and number of person
called

- If the internal or outside number does not reply:

OR

OR

broadcast a message on the loudspeaker of the free terminal

request callback to a busy terminal

send a written message

OR

go to next screen

store number to call again

1.4

Calling your correspondent by name (company directory)

Smith John

first letters of your correspondent's name

proposes a name followed by a corresponding telephone number and sequence number in list

- If name is OK

make the call

• If name is not OK:

1.5

Calling from your personal directory

shows first ten names already entered in directory*

OR

calling the selected correspondent

access other correspondents

* To enter your numbers see 'Programming your personal directory'.

1.6

Calling from the common directory

Your terminal has access to a common directory of outside numbers.

directory number

1.7

Receiving a call

your telephone
rings

Smith John

correspondent's name or
number

• To answer:

OR

OR

1.8

Filtering calls using the voice mailbox

This service lets you filter incoming calls to your voice mailbox. When your caller leaves his message you can choose to communicate with him.

• Activating call screening :

programmed key
**'Voice mailbox
screening'**

enter your personal
code

- **When you receive a call :**

0155667000

name or number of
the caller

you hear the message left by your
caller

hands free to take
the call

OR

OR

OR

to stop listening
only

same key to stop listening
and deactivate the screening

call

0155667000

number stored

1.11

Requesting automatic callback if internal number is busy

internal number busy

□ Cback

callback request acknowledged

• Cancelling callback request:

■ Cback

1.12

Answering an internal call in intercom mode

You can answer without lifting the receiver. When you receive an internal call, your telephone rings and you are connected directly in hands free mode. The screen shows the caller's identity.

corresponding LED lights up

When your caller hangs up, intercom mode remains active..

1.13 Sending DTMF signals

During a conversation you sometimes have to send DTMF signals, such as with a voice server, an automatic attendant or a remotely consulted answering machine.

during a conversation

to activate

to disable

The function is automatically cancelled when you hang up.

1.14

Making an ISDN call

* Sending a subaddress

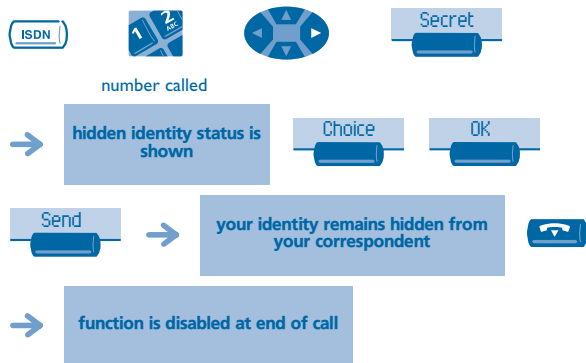

You may have to add a four-digit subaddress to the number called (to obtain a fax, PC or telephone, etc.).

1.15 Hiding your identity (ISDN call)

When you call an internal or an outside ISDN number, your number is automatically sent.

You can hide your identity before sending your call.

- **You can hide your identity for all calls:**

"Secret"
programmed key

- **To cancel hidden identity function:**

"Secret" programmed
key

1.16 Identifying a malicious call (ISDN call)

When you receive a call, you can ask the network operator to record informations about your communication (correspondents' numbers, date and time of call, subaddress, etc.).

during a conversation

Mcid

service request acknowledged

Using this service requires to take out a subscription to the network operator.

1.17 Activating the loudspeaker during a conversation (receiver lifted)

during a conversation

activate loudspeaker

OR

adjust volume (7 levels)

deactivate loudspeaker

1.18 Mute, so that your correspondent cannot hear you

You can hear your correspondent but he/she cannot hear you:

during a conversation

disable microphone

corresponding LED lights up

resume the
conversation

2.1

Making a second call during a conversation

- To cancel your second call and recover the first:

If you make an error, hang up: your telephone will ring and you will recover your first call.

2.2 Answering a second call during a conversation

- A second correspondent is trying to call you:

during a conversation

Smith John

caller's name or number
flashing for 3 seconds

line key for which icon
is flashing

first call is placed on hold

- To recover your first call:

line key corresponding to
icon

If you hang up without answering the second call, your telephone will ring.

2.3 Transferring a call

- To transfer your call to another number:

during a conversation

first call is placed on hold

number required

- If the number receiving the transfer answers:

OR

OR

if allowed by system configuration

You can also transfer your call immediately, without waiting for the number to answer, using either of the two methods described above.

Transfer between two outside calls is not generally possible (depends on country concerned and system configuration).

2.4

Switching between calls (Broker call)

During a conversation, a second call is on hold.

To recover the second call:

your first call is placed on hold

line key
corresponding to
icon

2.5

Three-way conference with internal and/or external correspondents (conference)

During a conversation, another call is on hold:

3-way conference

cancel conference and return
to first correspondent

hang up on all
correspondents

After the conference, to leave your two correspondents talking together:

2.6

Placing a call on hold (hold)

- **Exclusive hold:**

During a conversation, you wish to place the call on hold and recover it later, on the same telephone.

your call is placed on hold

line key

- **Recover the call on hold:**

line key corresponding to
icon

- **Common hold:**

To recover your call on any telephone in your system.

your call is placed on hold

- **Recover the call on hold from any telephone:**

line key corresponding
to icon

2.7 Placing an outside call on hold (parking)

You can place an outside call on hold and recover the call on another telephone:

during a conversation

Park

OR

“Parking” function
code

• To recover the parked call:

PickUp

RetPrk

number of telephone
from which call was
parked

OR

**“Retrieve parked
call”** function code

number of telephone
from which call was
parked

If the parked call is not recovered within a preset time
(default value 1 min 30), it is transferred to the operator.

2.8

Getting information about camped-on calls

- **Another call is received:**

during a conversation, you hear a beep

beep

the call is automatically placed on hold

Smith John

identity shown briefly

- **Check identity of callers on hold:**

Queue

Next

OR

Prev

last call received

check other calls

Answer

answer call displayed

2.9

Intrusion into an internal conversation

Your correspondent's line is busy. If the number is not "protected" and if authorised, you can intrude into the call:

same key to deactivate

• **Protection against intrusion:**

OR

"Protect a call"

programmed key or function
code

your correspondent's
number

Protection is cancelled when you hang up.

2.10

Store a number*

To store the displayed number in the personal directory while a communication is in progress:

select a record in the
directory

enter the name of
your correspondent

apply
(twice)

3.1 Receiving supervised call ringing

To receive the special ringing for calls to another number:

“Supervised call ringing” programmed key

same key to cancel

3.2 Answering a general bell

When the operator is absent, outside calls to the operator are indicated by a general bell. To answer:

PickUp

GenBel

OR

OR

“Answer general bell” programmed key or function code

3.3

Filtering calls for 'manager/secretary' groups

System configuration allows “manager/secretary” groups to be formed, so that the manager’s calls can be directed to one or more secretaries.

- **From the manager’s or secretary’s telephone:**

incoming calls are filtered by a chosen person
(secretary, etc.)

“**Filter**” programmed
key

same key to cancel

Filtering is indicated on the manager’s telephone by the icon corresponding to the “filtering” programmed key.

3.4

Call pick-up

You hear a telephone ringing in an office where no-one can answer. If authorised, you can answer the call on your own telephone.

- If the telephone ringing is in your own pick-up group:

“Group call pick-up” programmed
key or function code

- If the telephone ringing is not in your pick-up group:

The system can be configured to prevent call pick-up on certain telephones.

3.5 Answering briefly in place of the operator

Outside calls to the operator will ring on your telephone and you can answer the call:

your telephone will ring at the same time as the switchboard

“Operator help”

programmed key

same key to cancel

• Calls to the switchboard:

calls to the switchboard will ring on your telephone

“Operator help”
programmed key

3.6 Monitoring calls to other terminals

Calls to other numbers can be directed to any telephone (max. 8 numbers per programmed key):

your telephone will ring at the same time as the others

“Monitoring”

programmed key

same key to cancel

3.7

Hunting groups

- **Hunting group call:**

Certain numbers can form a hunting group and can be called by dialling the group number.

- **Temporary exit from your hunting group:**

OR

“Hunting group out” programmed key
or function code

your group number

- **Return into your group:**

OR

“Hunting group in” programmed key
or function code

your group number

Belonging to a group does not affect the management of direct calls. A specific telephone within a group can always be called by using its own number.

3.8

Calling an internal correspondent on his/her pager

The number called does not answer and you know that the person called has a pager:

number called

OR

“Paging” programmed key or function code

paging in progress is displayed

Your correspondent can answer from any telephone in the system.

3.9

Calling a correspondent on his/her loudspeaker

Your internal correspondent does not answer. If authorised, you can remotely activate your correspondent's phone:

□ Intru

you are connected to the loudspeaker on your correspondent's phone (if he/she has the hands free function)

3.10

3.14

Broadcasting a message on the loudspeakers of a station group

A message not requiring an answer can be broadcast on the loudspeakers within your broadcast group:

speak, you have 20 seconds

number of
broadcast group

The message will only be broadcast on terminals not in use and which have a loudspeaker.

3.15

Answering a call on your pager

A call on your pager can be answered from any telephone within the system.

your pager beeps

“Answer paging”
function code

your extension
number

3.16 Allocating an outside line

If authorised, you can transfer an outside line to another terminal, thus enabling that person to make an outside call.

during an internal conversation

“Allocate outside”
programmed key

your internal correspondent now has an
outside line and can dial

To know the cost of the call, press the **“Allocate & charge”** programmed key instead of the **“Allocate outside”** key, to allocate the line (see **“Managing your charges”**).

4.1 Selecting calls to be diverted

When a diversion is applied, you can select the types of call to be diverted: outside, internal, all.

change type of call

4.2 Diverting calls to another number (immediate diversion)

The number can be your home, portable or car phone, voice message or an internal extension (operator, etc.).

destination number

You can make calls, but only the destination number can call you.

4.3

Diverting your calls to your voice message service

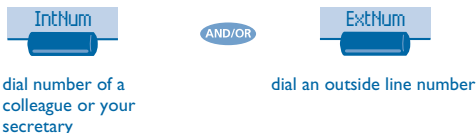

4.4

Activate/disable the personal assistant

4.5

Personal assistant : reaching you with one number only

4.6 Diverting calls to your pager

Callers will thus be able to contact you while you are moving around the company:

“Divert to paging” programmed key

6.9

Programming an appointment reminder

You can define the time of a temporary reminder (one in 24 hours) or a permanent reminder (every day at the same time).

- **At the programmed time, your telephone rings:**

If you are in conversation, the display flashes and an audio tone is generated. After three calls without reply, a temporary request is cancelled but a permanent request remains in memory.

If your calls are diverted to another terminal, the diversion is not applied to the reminder call.

- **To cancel your reminder request:**

6.10 Identify the terminal you are on

Press this key twice.

6.11 Broadcasting background music on your loudspeaker

You can broadcast background music on the loudspeaker of your telephone (depending on configuration):

when telephone is not in use,
background music is played

same key to cancel

The music stops when a call is made or received and starts again when you hang up.

6.12 Locking your terminal

This service enables you to prevent any outside calls from being made and prevent any changes to the programming of your terminal:

OR

personal code (4
digits, 1515 by default)

Independently of the legal warranty that covers this appliance, it is guaranteed for 1 year, parts and labour, counting from the date indicated on your invoice. Nevertheless, if the legal warranty in effect in your country exceeds 1 year, then the legal warranty is the sole warranty applicable.

The invoice will be demanded if making a claim under the warranty. The warranty does not however apply in the following cases: in the event of use that does not comply with the instructions given in this user's manual, faults or damage caused by natural wear, damage resulting from a cause external to the appliance (e.g. impact, fall, exposure to dampness, etc.), noncompliant installation or modifications or repairs carried out by people who are not approved by the manufacturer or retailer.

Declaration of compliance

We, Alcatel Business Systems, hereby declare that we assume the Alcatel Advanced Reflexes product to be compliant with the essential requirements of Directive

1999/5/CE of the European Parliament and Council.

Any unauthorised modification to the product shall render this declaration of compliance null and void. A copy of the original of this declaration of compliance can be obtained by post from :

Alcatel Business Systems - Technical Services - Customer Care

1, route du Dr. Albert Schweitzer - F 67408 Illkirch Cedex - France

The CE marking indicates that this product complies with the following EC directives:

- | | | |
|---|---|--|
|  | - | 89/336/CEE (electromagnetic compatibility) |
| | - | 73/23/CEE (low voltage) |
| | - | 1999/5/CE (R&TTE) |

Some of your telephone's functions require a software key or are only accessible once programmed by your installation technician.
