**ALCATEL OFFICE**

# User guide

UK

Thank you for choosing one of our **REFLEXES™**, range of telephones, and for your confidence in **ALCATEL**.

Your digital telephone offers you all the latest design features for really user-friendly communication.

Your **easy to use**, telephone offers you:

- a receiver that is pleasant to use: it fits nicely in the hand with a flexible grip section <sup>(1)</sup>
- simplified operation using the audio keys (loudspeaker, hands free <sup>(2)</sup>)...
- using the convenient alphabetic keypad, you can call your correspondents by name <sup>(3)</sup>
- the transparent keys, with integral magnifying <sup>(4)</sup>, make your key selection quick and clear to read (direct calls, functions).

Your **user-friendly** telephone offers you:

- a screen which shows your correspondent's number or name and also guides your programming,
- screen-displayed call icons <sup>(5)</sup> (busy, free, on hold) to help you manage your calls (switching between correspondents),
- a complete range of connection interface units for data transmission, assisted telephone applications (CTI\*) or easy connection of analogue (fax, answering machine) or ISDN terminals (PC with ISDN board, G4 fax).

- (1) Soft zones
- (2) Hands free.
- (3) Alphabetic keypad.
- (4) Transparent keys
- (5) Line icons

**Premium REFLEXES** telephone only

\*CTI : *Computer Telephone Integration*

# Symbols used in the documentation

## Actions, events

Press.

Lift receiver.

Hang up.

Text on blue background.

Description of an action or context.

➔ Indicates result of action.

## Display

Partial view of display.

## Programmable keys and icons

Line key.

Icon corresponding to key.

Key programmed by technician to access service.

"Services" programmed key.

Preprogrammed key (function represented by icon).

## Keypads

Numeric keypad.

Alphabetic keypad.

Specific key on numeric keypad.

## Audio keys

Loudspeaker (Premium).

Loudspeaker (Easy).

Hands free.

Adjustment "reduce".

Adjustment "increase".

## Other fixed keys

Fixed key.

Hang up or wait 2 seconds.

## Other symbols used

Important information.

Comment.

Alternative to action sequence.

Choice of operating mode in an action sequence.

Indicates operating difference, specific to this telephone.

## 1 Getting to know your telephone

## 1 Getting to know your telephone

UK

### Programmable keys and icons

To make a call, activate a service or manage your calls. Each key has a corresponding icon:

#### Line icons

-  Incoming call (flashing).
-  Call in progress.
-  Call on hold.
-  Call on common hold.

#### Function icons

-  Function active.
-  Function requiring action.
-  Terminal or line busy.

#### Some function keys are preprogrammed:

-  Next or previous display page.
-  Divert your calls to another number.
-  Three-way conference.
-  Automatically redial the last number dialled (redial).

#### Some other keys have been programmed by your technician for your own convenience:

-  Key must be programmed by your technician to access a service.

**Mute key**, so that your correspondent cannot hear you.

**Intercom key**, so that your telephone answers calls automatically, without lifting the receiver.

 Access the various mail services.

 Transfer a call to another number.

### Installing the programmable key labels

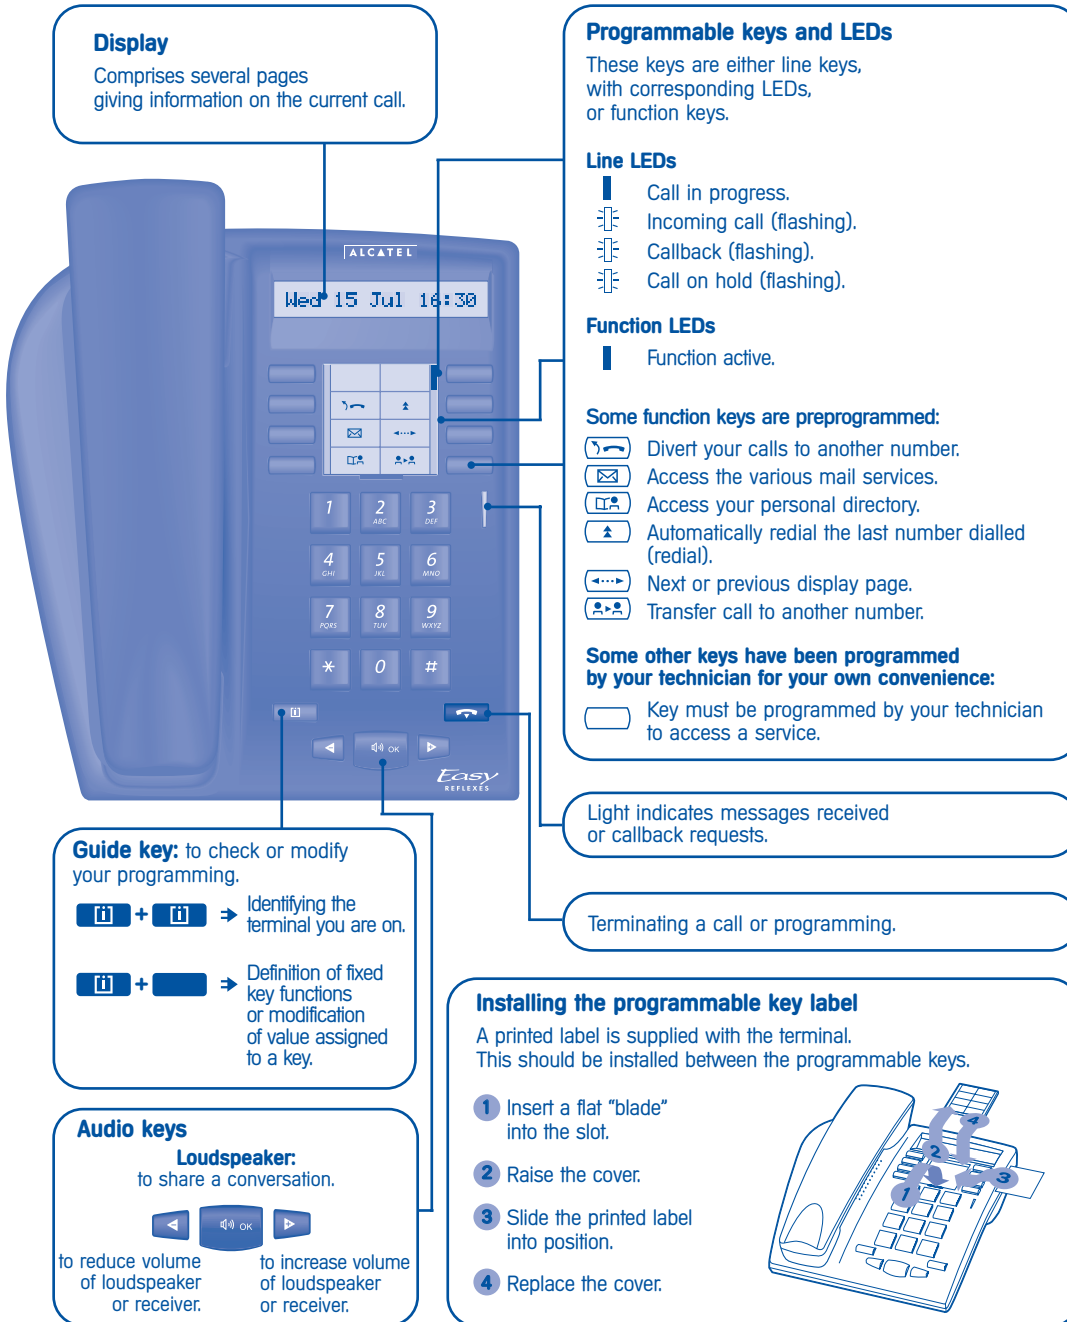

A printed label is supplied with the terminal. This should be installed beneath the programmable keys.

- 1 Insert a flat "blade" into the slot (1 slot per key block).
- 2 Raise the cover.
- 3 Slide the printed label into position.
- 4 Replace the cover.

## 1 Getting to know your telephone

**Display**  
Comprises several pages giving information on the current call.

**Programmable keys and LEDs**  
These keys are either line keys, with corresponding LEDs, or function keys.

**Line LEDs**

- Call in progress.
- Incoming call (flashing).
- Callback (flashing).
- Call on hold (flashing).

**Function LEDs**

- Function active.

**Some function keys are preprogrammed:**

- Divert your calls to another number.
- Access the various mail services.
- Access your personal directory.
- Automatically redial the last number dialled (redial).
- Next or previous display page.
- Transfer call to another number.

**Some other keys have been programmed by your technician for your own convenience:**

- Key must be programmed by your technician to access a service.

**Guide key:** to check or modify your programming.

- Identifying the terminal you are on.
- Definition of fixed key functions or modification of value assigned to a key.

**Audio keys**  
**Loudspeaker:** to share a conversation.

to reduce volume of loudspeaker or receiver.      to increase volume of loudspeaker or receiver.

**Light indicates messages received or callback requests.**

**Terminating a call or programming.**

**Installing the programmable key label**  
A printed label is supplied with the terminal. This should be installed between the programmable keys.

- 1 Insert a flat "blade" into the slot.
- 2 Raise the cover.
- 3 Slide the printed label into position.
- 4 Replace the cover.

## 2 Making a call

### Making or answering a call without lifting the receiver (hands free)\*

During a conversation, you can lift the receiver without terminating the call.

Go into hands free mode:

Answering a call in hands free mode:

\* Premium REFLEXES telephone only.

### Making an outside call

Making a call:

### Making an internal call

## 2 Making a call

UK

### Calling an internal correspondent by name (company directory)

If name is OK:

If name is not OK:

you can refine the search by adding more characters to the search name or by consulting the various proposals:

Easy  
REFLEXES

On **Easy REFLEXES** : telephones: this function requires a "Call by name" programmed key. When the key is pressed:

\* **Enter a letter:** the keys on the numeric keypad also correspond to letters which are displayed when you press the key.

## 2 Making a call

### Calling from your personal directory\*

*\*To programme your directory, see page 37.*

**Easy**  
REFLEXES

On **Easy REFLEXES** telephones: use the preprogrammed key to access your personal directory:

### Calling from the common directory

Your terminal has access to a common directory of outside numbers.

### Receiving a call

To answer:

### Redialling the last number dialled (redial)

## 2 Making a call

UK

### Temporarily storing a number to call again

Redialling the stored number:

*Easy*  
REFLEXES

On *Easy REFLEXES* telephones: use the preprogrammed key to access your personal directory:

### Requesting automatic callback if internal number is busy

Cancelling callback request:

### Answering an internal call in intercom mode\*

You can answer without lifting the receiver. When you receive an internal call, your telephone rings and you are connected directly in hands free mode. The screen shows the caller's identity.

\*Premium REFLEXES telephones only.

## 2 Making a call

### DTMF dialling (voice server, automatic switchboard or consulting recorded messages)

The function is automatically cancelled when you hang up.

### Making an ISDN call

To correct the number:

To send the call:

**Sending a subaddress:**

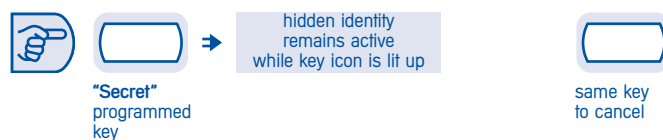

You may have to add a four-digit subaddress to your correspondent's number (to obtain a fax, PC, telephone, etc.).

### Hiding your identity (ISDN call)

When you call an internal or an outside ISDN number, your number is automatically sent.

You can hide your identity before sending your call.

## 2 Making a call

UK

### Activating the loudspeaker during a conversation (receiver lifted)

during a conversation

activate  
loudspeaker

adjust volume  
(7 levels)

or

deactivate  
loudspeaker

### Mute, so that your correspondent cannot hear you\*

You can hear your correspondent but he/she cannot hear you:

during a conversation

disable  
microphone

LED corresponding  
to key lights up

resume  
the conversation

\*Premium REFLEXES telephones only.

## ③ Handling several calls

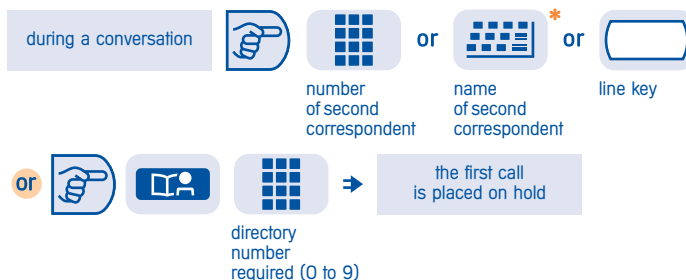

UK

Making a second call during a conversation .....	p. 16
Answering a second call during a conversation.....	p. 16
Transferring a call .....	p. 17
Switching between calls (Broker call).....	p. 17
Three-way conference with internal and/or external correspondents (conference) .....	p. 17
Placing a call on hold (hold).....	p. 18
Placing an outside call on hold (parking) .....	p. 18
Getting information about camped-on calls.....	p. 19
Intrusion into an internal conversation.....	p. 19

### 3 Handling several calls

#### Making a second call during a conversation

To cancel your second call and recover the first:

If you make an error, hang up: your telephone will ring and you will recover your first call.

\* *Premium REFLEXES telephones only.*

#### Answering a second call during a conversation

A second correspondent is trying to call you:

To recover your first call:

If you hang up without answering the second call, your telephone will ring.

### 3 Handling several calls

UK

#### Transferring a call

To transfer your call to another number:

If the number receiving the transfer answers:

You can also transfer your call immediately, without waiting for the number to answer, using either of the two methods described above.

*Transfer between two outside numbers is generally not possible (depends on country concerned and system configuration).*

On **Easy REFLEXES** elephones: use the preprogrammed key  to access the "Transfer" function:

#### Switching between calls (Broker call)

During a conversation, a second call is on hold.  
To recover the second call:

#### Three-way conference with internal and/or external correspondents (conference)

During a conversation, another call is on hold:

*After the conference, to leave your two correspondents talking together:*

### 3 Handling several calls

#### Placing a call on hold (hold)

##### Exclusive hold:

During a conversation, you wish to place the call on hold and recover it later, on the same telephone.

your call  
is placed on hold

line key

##### Recover the call on hold:

line key  
corresponding to icon

##### Common hold:

To recover your call on any telephone in your system.

your correspondent is placed on hold  
and hears the holding tone

"Hold"  
programmed key

##### Recover the call on hold from any telephone:

line key corresponding to icon

#### Placing an outside call on hold (parking)

You can place an outside call on hold and recover the call on another telephone:

during a conversation

or

your correspondent  
is placed on hold  
and hears the holding tone

"Park call"  
programmed key or function code

##### To recover the parked call:

or

"Retrieve parked call"  
programmed key  
or function code

number from which  
call was parked

If the parked call is not recovered within a preset time (default time 1 min 30), it is transferred to the operator.

### 3 Handling several calls

UK

#### Getting information about camped-on calls

Another call is received:

You wish to take the call immediately:

*If several calls are received simultaneously, only the last one is shown.*

#### Intrusion into an internal conversation

Your correspondent's line is busy. If the number is not "protected" and if authorised, you can intrude into the call:

Protection against intrusion:

Protection is cancelled when you hang up.

## 4 Group operation

UK

Receiving supervised call ringing.....	p. 22
Answering a general bell .....	p. 22
Filtering your calls.....	p. 22
Call pick-up.....	p. 23
Answering briefly in place of the operator .....	p. 23
Monitoring calls to other terminals.....	p. 23
Hunting groups.....	p. 24
Calling an internal correspondent on his/her pager .....	p. 24
Calling a correspondent on his/her loudspeaker .....	p. 24
Sending a written message to an internal correspondent.....	p. 25
Sending a message to your broadcast group .....	p. 26
Answering a call on your pager.....	p. 26
Allocating an outside line.....	p. 26

## 4 Group operation

### Receiving supervised call ringing

To receive the special ringing for calls to another number:

"Supervised call ringing"  
programmed key

same key  
to cancel

*This service must have been programmed by your installation technician.*

### Answering a general bell

When the operator is absent, outside calls to the operator are indicated by a general bell. To answer:

or

"Answer general bell"  
programmed key  
or function code

### Filtering your calls

System configuration allows "manager/secretary" groups to be formed, so that the manager's calls can be directed to one or more secretaries.

From the manager's or secretary's telephone:

"Filter"  
programmed key

calls to manager's number  
are filtered by the selected person  
(secretary, for example)

same key  
to cancel

*Filtering is indicated on the manager telephone screen and on the programmed keys of the manager and secretary telephones.*

## 4 Group operation

UK

### Call pick-up

You hear a telephone ringing in an office where no-one can answer.  
If authorised, you can answer the call on your own telephone.

If the telephone ringing is in your own pick-up group:

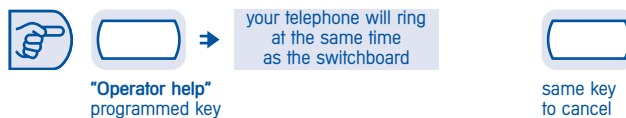

If the telephone ringing is not in your pick-up group:

*The system can be configured to prevent call pick-up on certain telephones.*

### Answering briefly in place of the operator

Outside calls to the operator will ring on your telephone  
and you can answer the call:

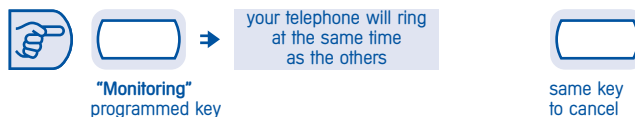

Calls to the switchboard:

### Monitoring calls to other terminals

Calls to other numbers can be directed to any telephone  
(max. 8 numbers per programmed key):

## 4 Group operation

### Hunting groups

#### Hunting group call:

Certain numbers can form a hunting group and can be called by dialling the group number.

#### Temporary exit from your hunting group:

#### Return into your group:

*Belonging to a group does not affect the management of direct calls.  
A specific telephone within a group can always be called by using its own number.*

### Calling an internal correspondent on his/her pager

The number called does not answer and you know that the person called has a pager:

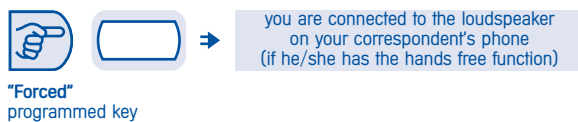

*Your correspondent can answer from any telephone in the system.*

### Calling a correspondent on his/her loudspeaker

Your internal correspondent does not answer.

If authorised, you can remotely activate your correspondent's phone:

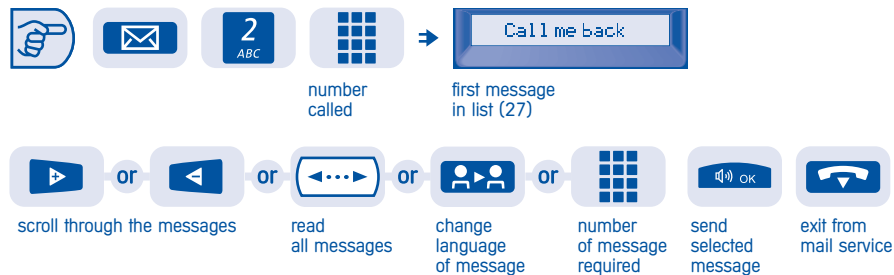

## 4 Group operation

UK

### Sending a written message to an internal correspondent

If selected message has to be completed:

On **Easy REFLEXES** telephones: use appropriate preprogrammed key to access "Message" or "Transfer" function:

The 27 standard messages are shown below:

- |                                   |  |
|-----------------------------------|--|
| 1 CALL ME BACK                    | 15 MEETING ON xx xx xx (*)                 |
| 2 CALL ME BACK TOMORROW           | 16 MEETING ON xx xx xx AT xx : xx (*)      |
| 3 CALL ME BACK AT xx : xx (*)     | 17 OUT FOR A WHILE                         |
| 4 CALL BACK xx xx xx (*)          | 18 ABSENT FOR THE REST OF THE DAY          |
| 5 CALL THE ATTENDANT              | 19 ABSENT, BACK AT xx : xx (*)             |
| 6 CALL THE SECRETARY              | 20 ABSENT, BACK ON xx xx xx AT xx : xx (*) |
| 7 I WILL CALL BACK AT xx : xx (*) | 21 ON VACATION, BACK ON xx xx xx (*)       |
| 8 USE PAGING                      | 22 EXTERNAL MEETING                        |
| 9 PLEASE FETCH YOUR FAX           | 23 EXTERNAL MEETING, BACK ON xx xx xx (*)  |
| 10 PLEASE FETCH YOUR MAIL         | 24 I AM IN ROOM NR xxxx (*)                |
| 11 PLEASE CANCEL YOUR FORWARDING  | 25 IN A MEETING - DO NOT DISTURB           |
| 12 VISITORS ARE WAITING           | 26 AT LUNCH                                |
| 13 YOU ARE EXPECTED AT RECEPTION  | 27 INDISPOSED                              |
| 14 MEETING AT xx : xx (*)         |  |

(\*) Messages to be completed using numeric keypad.

## 4 Group operation

### Sending a message to your broadcast group

A message not requiring an answer can be broadcast on the loudspeakers within your broadcast group:

*The message will only be broadcast on terminals not in use and which have a loudspeaker.*

### Answering a call on your pager

A call on your pager can be answered from any telephone within the system.

### Allocating an outside line

If authorised, you can transfer an outside line to another terminal, thus enabling that person to make an outside call.

*To know the cost of the call, press the "Allocate & charge" programmed key instead of the "Allocate outside" key, to allocate the line (see "Managing your charges").*

## 5 While you are away When you return

UK

Selecting calls to be diverted .....	p. 28
Diverting calls to another number (immediate diversion).....	p. 28
Diverting calls to a recorded message .....	p. 28
Diverting calls to your pager .....	p. 29
Forwarding your calls from the receiving terminal ("Follow me").....	p. 29
Applying a selective diversion .....	p. 29
Diverting all group calls .....	p. 30
Cancelling all diversions.....	p. 30
Diverting calls when your line is busy (divert if busy).....	p. 30
Do not disturb .....	p. 31
Consulting recorded messages.....	p. 31
Leaving a recorded message for internal callers.....	p. 31
Consulting written messages .....	p. 32

## 5 While you are away - When you return

### Selecting calls to be diverted

When a diversion is applied, you can select the types of call to be diverted: outside, internal, all.

### Diverting calls to another number (immediate diversion)

The number can be your home, portable or car phone, voice message or an internal extension (operator, etc.).

*General remark concerning diversions: the number to which your calls are diverted can be programmed. However, if the programmed number is not being answered, another diversion number should be entered when the function is activated.*

*You can make calls, but only the destination number can call you.*

### Diverting calls to a recorded message

5

While you are away - When you return

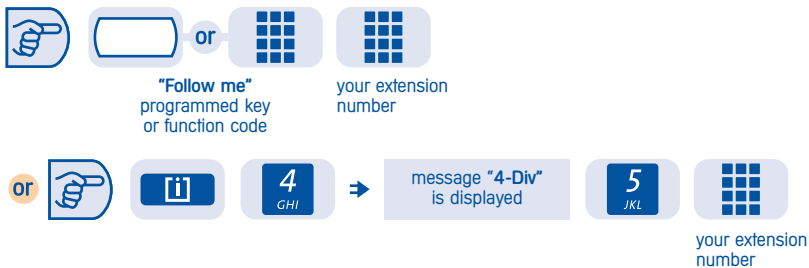

Diverting calls to your pager

Callers will thus be able to contact you while you are moving around the company:

Forwarding your calls from the receiving terminal ("Follow me")

You wish to receive your calls in your present location:  
Use the "Follow me" function.

Applying a selective diversion

You can selectively divert calls, according to the caller's identity:

To use this function, the selective diversion lists must be programmed.

## 5 While you are away - When you return

### Diverting all group calls

You can divert all your group calls to another internal number:

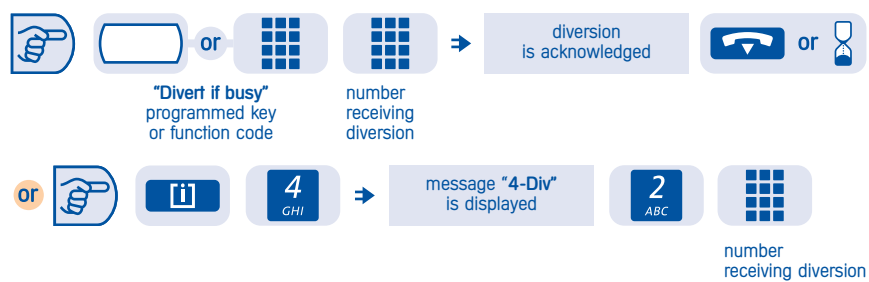

### Cancelling all diversions

A diversion can also be cancelled by programming another type of diversion.

### Diverting calls when your line is busy (divert if busy)

## 5 While you are away - When you return

UK

### Do not disturb

You can make your terminal temporarily unavailable for all calls.

### Consulting recorded messages

The LED and the green LED on your telephone indicate that messages have been received:

For further information concerning the voice mail service, see the specific booklet.

*Easy*  
REFLEXES

On *Easy REFLEXES* telephones: use the preprogrammed key to access the "Message" function:

### Leaving a recorded message for internal callers

You can leave a message on your telephone which will be displayed on the screen of the telephone calling you:

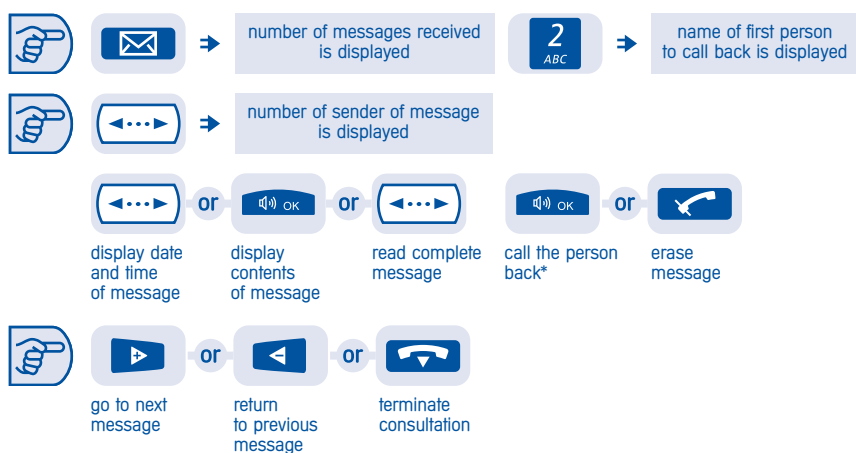

Message is selected in the same way as in: "Sending a written message to an internal correspondent" (page 25).

## 5 While you are away - When you return

### Consulting written messages

The LED  and the green LED on your telephone indicate that messages have been received:

*\*Calling the person back automatically erases the message.*

**Easy**  
REFLEXES

On **Easy REFLEXES** telephones: use the preprogrammed key to access the "Message" function:

## ⑥ Managing your charges

UK

Charging your calls directly to business accounts ..... p. 34

Finding out the cost of an outside call made for an internal user  
from your terminal ..... p. 34

Charging the cost of an outside call to your company ..... p. 34

## 6 Managing your charges

### Charging your calls directly to business accounts

You can charge the cost of your outside calls to business account numbers.

Adding or changing a business code during a call:

### Finding out the cost of an outside call made for an internal user from your terminal

At the end of the call, you are called back and you can:

1. Read information related to call  
(cost, duration, number of units):

2. Print a charge ticket:

**Easy**  
REFLEXES

On Easy REFLEXES telephones: use the preprogrammed key to access the "Transfer" function:

### Charging the cost of an outside call to your company\*

If authorised, when travelling or from home, you can call a public network subscriber and charge the cost of the call to your company.

\*For greater detail,  
contact your system manager.

## 7 Customising and adjusting your telephone

UK

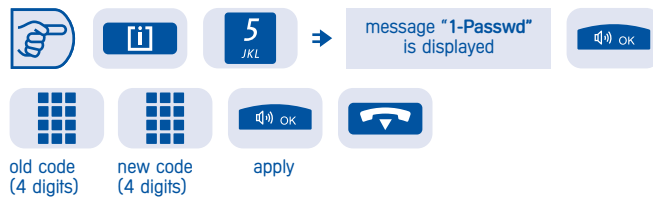

Programming your personal code .....	p. 36
Adjusting your ringer .....	p. 36
Adjusting display and icon brightness .....	p. 36
Selecting language.....	p. 37
Changing the value assigned to a key on your terminal .....	p. 37
Programming your personal directory.....	p. 37
Programming an appointment reminder.....	p. 38
Identifying the terminal you are on.....	p. 39
Broadcasting background music on your loudspeaker .....	p. 39
Locking your terminal .....	p. 40

## 7 Customising and adjusting your telephone

### Programming your personal code

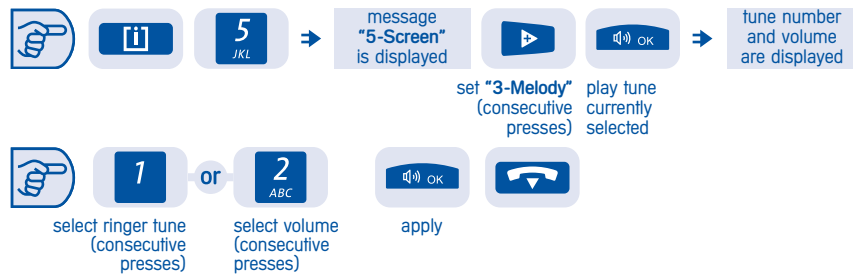

The default code for your terminal is 1515.  
This code enables you to lock your telephone (see p.40).

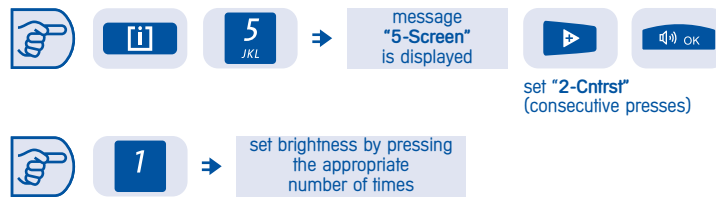

Each code digit is represented by an asterisk.

### Adjusting your ringer

You can choose your ringer tune and the volume.

### Adjusting display and icon brightness

Levels of brightness are scaled from 4 to 16.

## 7 Customising and adjusting your telephone

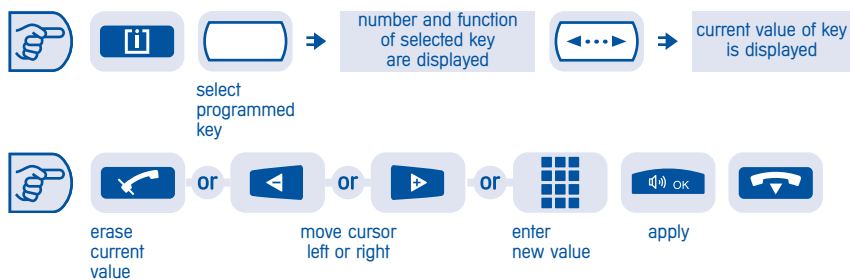

UK

### Selecting language

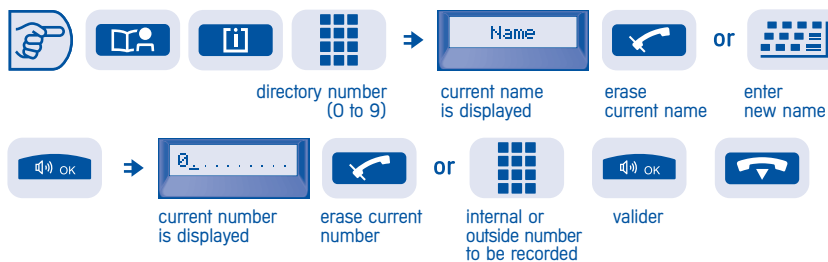

### Changing the value assigned to a key on your terminal

To change the parameter:

Caution: you cannot change the function of the key (this can only be done by the installation technician).

### Programming your personal directory

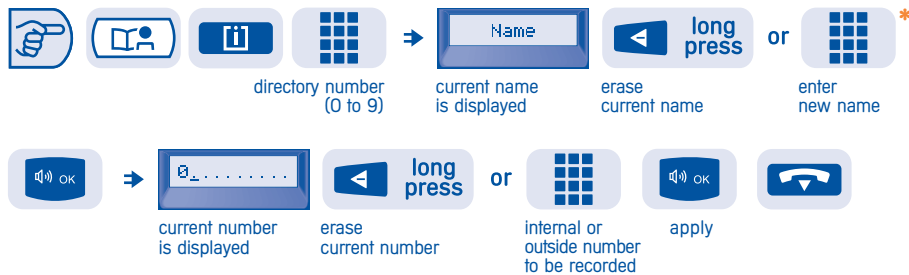

## 7 Customising and adjusting your telephone

### Programming your personal directory (continued)

On Easy REFLEXES telephones:

\* Enter a name: the keys on the numeric keypad also have letters which can be displayed by consecutive presses.

### Programming an appointment reminder

To programme a temporary appointment reminder (one callback within the next 24 hours):

To programme a permanent appointment reminder (callback every day at the same time):

For a temporary reminder, the display shows "Appmnt: ... : ..."

## 7 Customising and adjusting your telephone

UK

### Programming an appointment reminder (continued)

At the programmed time, your telephone rings:

*If you are in conversation, the display flashes, a tone is sent and you will hear a beep. After three unanswered calls, a temporary callback request will be cancelled but a permanent callback request will remain in memory. If your calls are diverted to another terminal, the diversion is not applied to the reminder call.*

To cancel your reminder request:

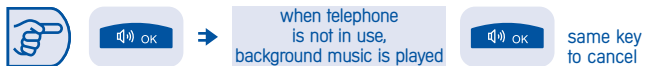

### Identifying the terminal you are on

### Broadcasting background music on your loudspeaker

You can broadcast background music on the loudspeaker of your telephone (depending on configuration):

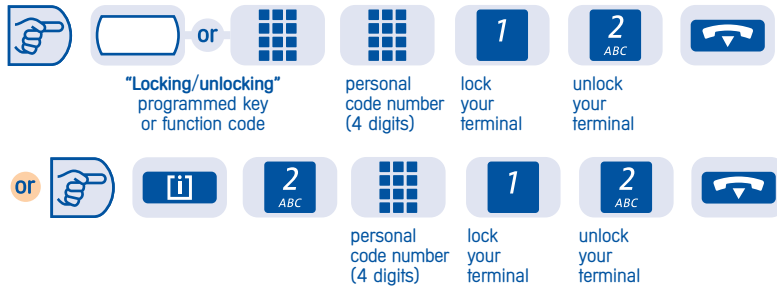

*The music stops when a call is made or received and starts again when you hang up.*

## 7 Customising and adjusting your telephone

### Locking your terminal

This service enables you to prevent any outside calls from being made and prevent any changes to the programming of your terminal:

## ⑧ Glossary

UK

- **ANSWERING A NIGHT CALL :**  
This service enables you to answer a call indicated by a general bell.
- **BROKER CALL :**  
Function enabling the user to switch back and forth between several simultaneous calls.
- **CALL TRANSFER :**  
Function enabling a call to be transferred to another telephone within the system.
- **COMMON DIRECTORY :**  
This directory contains all the directory numbers available to system users.
- **CONFERENCE :**  
This service enables a user, in contact with two correspondents, to conduct a three-way conference.
- **DTMF :**  
During a conversation, DTMF codes are sometimes required. This type of dialling is used when the user wishes to consult a voice server, access an automatic exchange or remotely consult an answering machine.
- **EXCLUSIVE HOLD :**  
This service places a call on hold while another operation is carried out, before subsequent recovery of the call on the same terminal.
- **FILTERING :**  
This service is provided for “manager/secretary” configurations, and enables calls to the manager to be diverted to one or more secretary’s telephones.
- **GENERAL BELL :**  
When the operator is absent, internal and outside calls to the operator are indicated by a general bell, which can be answered by any authorised terminal.
- **HUNTING GROUP :**  
Several telephones grouped under one directory number.  
A call to this number is directed to one of the free telephones within the group.
- **INTERCOM :**  
This service allows internal calls to be answered automatically through the loudspeaker, without lifting the receiver.

## ⑧ Glossary

- **INTRUSION :**  
This service is used to speak to a correspondent that you wish to contact, when the correspondent's line is busy.
- **ISDN :**  
Integrated Services Digital Network.
- **LINE KEY :**  
Key pressed to obtain a line.
- **MANAGER/SECRETARY :**  
Specific services (filtering, diversion) provided between a manager's telephone and a secretary's telephone.
- **MULTI-LINE TERMINAL :**  
Terminal with several lines enabling several calls to be managed.
- **PERSONAL CODE :**  
This code acts as a password, controlling access to the programming and terminal locking functions by the user (default code: 1515).
- **PERSONAL DIRECTORY :**  
This directory contains the personal numbers of the user of a terminal.
- **PICK-UP GROUP :**  
This service enables you to answer a call ringing on another terminal. Calls can only be intercepted within the pick-up group.
- **SUBADDRESS :**  
To use ISDN to contact your correspondent's fax, PC or telephone, it may be necessary to add a four-digit "subaddress".

available for the entire range and providing the following facilities:

- use of assisted telephony applications,
- data transmission (V24, etc.),
- connection of analogue terminals (fax, modem),
- connection of ISDN terminals (PC with ISDN board, G4 fax).

Guarantee conditions:

Irrespective of the applicable statutory guarantees, this equipment is guaranteed for a period of one year, from the date of purchase (invoice date), in respect of all parts and repair charges. However, this guarantee shall not be applicable if the equipment has been used in any way contrary to the instructions given in this manual, in cases of damage due to causes outside the equipment itself, if the equipment installation is/was not compliant with applicable regulations, if the equipment has been modified in any way or if repair work has been carried out by persons not approved by the manufacturer or retailer.

Compliance: This telephone is designed to be connected behind an Alcatel 4200 PABX. It comes in the SELV (Safety Extra Low Voltage) rank, as defined in French standard NF EN 60950.

The CE mark confirms that this product complies with the following EEC directives:

- 89/336/CEE (electromagnetic compatibility)
- 73/23/CEE (low voltage)
