

The Model 9133i is an advanced, fully featured multi-line IP Telephone that takes full advantage of VoIP technology by offering a flexible, interoperable solution at an affordable price.

Model 9133i IP Telephone

Key Features:

- * **Enhanced Call Management** — Large storage for personal directory, callers log, and redial list
- * **Tight Integration** — Support for multiple IP telephony systems including BroadWorks®, Nortel, Sylanro, and Asterisk SIP
- * **Multiple Line/Call Appearance Lights** — Support up to 10 simultaneous calls. Juggle multiple calls easily with a single press of a button
- * **Shared Call Appearances** — Shared calls allow you to place a call on hold at one set and pick it up easily at another set
- * **Remarkable Audio** — Quality speakerphone with excellent voice clarity and delivery
- * **Protect Your Investments** — Firmware upgrades can be downloaded and installed in the field as standards develop and protocols evolve
- * **Less Wiring** — Built in dual 10/100 switched Ethernet ports let you share a connection with your computer. Inline power support eliminates the need for a power adapter

Building success with the business telephone I
